

***This is a work in progress. This is chapter 7 of my “Biblical Physics” book. The first half of the file is fleshed-out notes on the subject. Somewhere in the middle, it changes over to notes and ideas, not actual text of a book. Please feel free to read and comment: email: Ch7@chaiguy.net***

---

## **DNA, Human Beings, Other Beings and Jesus Christ**

- God named the stars.

Ancient Hebrews believed that God, Jehova, had created many other beings besides humans. They further believed that they lived out among the stars. They may have been right.

Rev 12:4 Now<sup>7</sup> the dragon’s tail swept away a third of the **stars** in heaven and hurled them to the earth.

Ps 147:4 He counts the number of the **stars**; he names all of them.

(Those Invisible Spirits Called Angels, Renald Showers, Friends of Israel Gospel Ministry, BellMawr, NJ 1997.) pp 96-87

II Kings 21:3 He rebuilt the high places that his father Hezekiah had destroyed; he set up altars for Baal and made an Asherah pole just like King Ahab of Israel had done. He bowed down to all the **stars** in the sky and worshiped them. 21:4 He built altars in the Lord’s temple, about which the Lord had said, “Jerusalem will be my home.” 21:5 In the two courtyards of the Lord’s temple he built altars for all the **stars** in the sky.

II Kings 23:4 The king ordered Hilkiah the high priest, the high ranking priests, and the guards to bring out of the Lord’s temple all the items that were used in the worship of Baal, Asherah, and all the **stars** of the sky. The king burned them outside of Jerusalem in the terraces of Kidron, and carried their ashes to Bethel. 23:5 He eliminated the pagan priests whom the kings of Judah had appointed to offer sacrifices on the high places in the cities of Judah and in the area right around Jerusalem. They offered sacrifices to Baal, the sun god, the moon god, the constellations, and all the **stars** in the sky. 23:6 He removed the Asherah pole from the Lord’s temple and took it outside Jerusalem to the Kidron Valley, where he burned it. He smashed it to dust and then threw the dust in the public graveyard.

These beings have various names: Seraph, Cherub, Angel, and others. Michael Heiser (michaelsheiser.com), probably has the best hierarchical structure explanation of anyone. I don't want to get bogged down in these details because they are not important to understanding the point I am trying to make. I'll just refer the the whole group as angels, which simply means “messengers.” You only need to understand that there are different kinds and classes of angels. Some are powerful and make decisions. Some are simply “messengers.” All were created by God, Jehova. The Bible tells us that about a third of them gave their allegiance to the adversary, who is called Satan, mainly due to the King James Bible. This is not really his mane. His given mane was Lucifer. So, in very general terms, there are two groups of these beings: fallen and unfallen. Those who side with Satan, and those who

side with Jehova.

These Beings have had contact with humans. It is recorded throughout Scripture, from the old and into the new testament. Here are just a very few representative samples:

Gen 16 16:9 Then the Lord's **angel** said to her, "Return to your mistress and submit<sup>29</sup> to her authority. 16:10 I will greatly multiply your descendants," the Lord's **angel** added,<sup>30</sup> "so that they will be too numerous to count."

Hosea 12:4 He struggled<sup>5</sup> with an **angel** and prevailed; he wept and begged for his favor. He found God at Bethel, and there he spoke with him!

Acts 11:12 The Spirit told me to accompany them without hesitation. These six brothers also went with me, and we entered the man's house. 11:13 He informed us how he had seen an **angel** standing in his house and saying, 'Send to Joppa and summon Simon, who is called Peter, 11:14 who will speak a message to you by which you and your entire household will be saved.'

These beings seem to experiment and develop technology like humans do. It also seems that they sometimes pass their discoveries on to humans when it is convenient. This is conjecture, but the book of Enoch seems to indicate that these beings have passed on technology. The Book of Enoch is quoted in Jude. Most Bible scholars do not include the book of Enoch in the group of writings that are considered "inspired." However, the Book of Enoch occupied a very important place in Hebrew thinking and philosophy for thousands of years. It is even found among the Dead Sea Scrolls. It may not carry the weight of inspiration, but its age and reveredness among the Hebrews forces us to look at it with some respect.

There is a limit to the interaction these beings can have with humans. It seems that as beings among the fallen group became very bold, God, Jehova, started to rein them in. Gen 6, in particular, seems to be an all out attack on God's creation.

Gen 6

Those of us who believe in a young earth and a recent creation would say that the few hundred years that passed from Gen 1 to Gen 6 would leave the human genome in pretty good shape. In fact the indication is that the occupants of the earth were protected much more thoroughly from space radiation due to heavy water vapor above and in the atmosphere. There are a lot of indications that the atmosphere had to be much more oxygen rich in order to support the lives of the huge creatures that lived, then, as well. Except for mankind living in sin and having to work for his food, it was still a fairly easy place to live. They live to be 600 to 900 years old.

But when the "Sons of God" saw that the daughters of men were fair – probably better than fair! - they took them for wives and had "children." This is the first, explicit indication of angels or "extra terrestrials" experimenting sexually with humans. Their offspring was referred to as "Nephilim," or fallen ones. They were giants. There are many indications that some "human" were giants in the distant past. Jehova's human genome was corrupt! Not everyone, of course, but there were probably fewer people on the earth, then. This is also the probable genesis of all the great mythologies. Greek, Roman, Hindu, you name it, they all have the same stories.

Jehova needed to show that He could preserve a pure race of humans to fulfill the promise of the

redeemer in Gen 3. The redeemer had to be purely human, like Adam. In fact the Messiah is referred to as “the Second Adam.” Two things happened. The first was that the fallen beings who did this deed of corruption were imprisoned for future judgment. The Revelation speaks of the beast that was, is not, but is to come. Jude indicates that these creatures in Gen. 6 are being held until a future time, FOI p90-91

Rev 17:8 The **beast** you saw was, and is not, but is about to come up from the abyss and then go to destruction.

JUDE 1:6 You also know that the angels who did not keep within their proper domain but abandoned their own place of residence, he has kept in eternal chains in utter darkness, locked up for the judgment of the great Day.

So, they cannot do now what they did in Gen. 6. Jehova will bring about the culmination of what they started in Gen. 6 when it is in His plan for that to happen.

The second result was the global flood. Jehova destroyed all life on earth, within certain classes, except for those on the ark that Noah and his sons built. A couple things to note, here:

1. Noah is described as being “perfect.” The word, here, can refer to his genetic composition, that he is fully human, not corrupt with “alien DNA. (Those Invisible Spirits Called Angels, Renald Showers, Friends of Israel Gospel Ministry, BellMawr, NJ 1997.)
1. One might assume that Noah's wife might also fit this description, but it is never stated.
2. If Noah's wife was “perfect, too, then Noah's sons would also be genetically pure.
3. The sons' wives are never described in this way. It would be a stretch to include them all in the description as “perfect.” However, it would seem that at least Shem's wife would have been.

Some try to limit the interaction of these beings with humans, sexually. The question of “Why would God create a being with sexual abilities and not give them a method to fulfill this desire?” One answer is simple: Jesus Christ was fully man. According to the Jewish law, the priests and the sacrifices had to be fully functional, sexually, even if they never used this ability. He had to be complete. It seems obvious that God the Father never intended for Him to produce offspring with this physical ability. It also seems obvious that His body was perfect in every way, therefore, capable of producing offspring.

The sacrifice:

Leviticus 22:24 You must not present to the Lord something with testicles that are bruised, crushed, torn, or cut off; you must not do this in your land.

The serving priest:

Leviticus 21:16 The Lord spoke to Moses: 21:17 “Tell Aaron, ‘No man from your descendants throughout their generations<sup>26</sup> who has a physical flaw is to approach to present the food of his God. 21:18 Certainly no man who has a physical flaw is to approach: a blind man, or one who is lame, or one with a slit nose, or a limb too long, 21:19 or a man who has had a broken leg or arm, 21:20 or a hunchback, or a dwarf, or one with a spot in his eye, or a festering eruption, or a feverish rash, or a crushed testicle. 21:21 No man from the descendants of Aaron the priest who has a physical flaw may step forward to present the Lord’s gifts; he has a physical flaw, so he must not step forward to present the food of his God. 21:22 He may eat both the most holy and the holy food of his God, 21:23 but he must not go into the veil-canopy or step forward to the altar because he has a physical flaw. So he must not profane my holy places, for I am the Lord who sanctifies them.’”

Seems harsh, but even the ones who were not allowed to serve, were cared for by the system. The key is that only the obviously perfect ones were allowed to serve. Certainly, genetic flaws were present in the sacrifice and the priest, but no one on earth could possibly know anything about it. Only obvious flaws could be legitimately filtered.

Jesus Christ met all definitions of “the spotless lamb” and the “high priest.” He was obviously complete and must have been genetically complete, as well. The human genome of Adam!

Another answer is that you cannot presume something you cannot know and is not expressed. The Bible does refer to angels “not being married.” But this is not an explanation as to why God may or may not create some class of angel with sexual abilities.

- Gen 6:

Human DNA is mixed with other-being DNA.

God created “kinds” at creation. We cannot know whether or not any angel “kind” can have offspring with a human “kind.” Gen 6 indicates that it can happen with at least some of the “kinds” God created. Specifically, the beings in Genesis 6 are called “the Sons of God,” not angels. Lions and Tigers can produce viable, fertile offspring: Ligers. Horses and Donkeys can produce offspring, but it is not fertile: Mule. There are many other examples in nature.

Noah was only “pure” human on earth in a physical sense, as noted in scripture. FOI Pp 102-104 (Those Invisible Spirits Called Angels, Renald Showers, Friends of Israel Gospel Ministry, BellMawr, NJ 1997.)

God saved Noah, his wife, sons, sons' wives. There is no indication that the sons' wives are “pure” human. The text does indicate that Noah was. We might even infer that maybe even his wife and therefore his sons were. That's about as far as you can go. The sons' wives are an unknown factor, genetically. Nothing is said about them, except that they made the journey. All human and animal life on earth came from these rescued beings. Why would God let genetically damaged beings through? To show His power to direct and protect His plan!

Wheat/Tares: “Master, an enemy has sown tares in your wheat field”. The master says to leave them until the harvest because he does not want to disturb the wheat:

Matthew 13:24 He presented them with another parable: “The kingdom of heaven is like a person who sowed good seed in his field. 13:25 But while everyone was sleeping, an enemy came and sowed weeds among the **wheat** and went away. 13:26 When the plants sprouted and bore grain, then the weeds also appeared. 13:27 So the slaves of the owner came and said to him, ‘Sir, didn’t you sow good seed in your field? Then where did the weeds come from?’ 13:28 He said, ‘An enemy has done this.’ So the slaves replied, ‘Do you want us to go and gather them?’ 13:29 But he said, ‘No, since in gathering the weeds you may uproot the **wheat** with them. 13:30 Let both grow together until the harvest. At harvest time I will tell the reapers, “First collect the weeds and tie them in bundles to be burned, but then gather the **wheat** into my barn.””

Wheat: Bears fruit, it is real. Salvation makes new creature.

Tare: takes up space, looks real, LOOKS completely like wheat, but no fruit.

Could it be that human “tares” carry damaged/supplanted DNA?

“Alien experimentation” may be a continuation of what started in Gen. 6 and God ended those beings' ability to sexually mix “kinds.” Today it is petri dishes and “invitro” and technology that they use to continue their plan.

- Source of giants – Anak, Goliath, etc:

Genetic segregation at the Tower of Babel. Genetic information is lost and amplified among the people groups. There is no further indication that the beings from Gen. 6 ever attempted to do the same thing again. It would seem that God has prohibited this sexual activity and intermingling of DNA.

Egyptian priests and their “magic” may have been due to this. I have always found it curious that Joseph acquired all of Egypt, but not the land of the priests. All of the plagues at the Exodus were judgments on the Egyptian gods.

The purity rituals and symbolic purity of the Hebrew's lives is a picture of what God intended His Messiah to be. No mixing of animals, fabrics, people groups, etc.... God wanted to show the “angels” that He could preserve a genetically pure group of people from which He would bring His genetically, purely human, Messiah.

These were His chosen people, and they failed Him. A lesson for us!

- Benjamin became mixed – Judges 19-21.

21:20 So they commanded the Benjaminites, “Go hide in the vineyards, 21:21 and keep your eyes open. When you see the daughters of Shiloh coming out to dance in the celebration, jump out from the vineyards. Each one of you, catch yourself a wife from among the daughters of Shiloh and then go home to the land of Benjamin.

Who are the daughters of Shiloh? Are they from people-groups that are not to be intermarried with?

Why did God choose Saul to be king?

Why did God choose Saul/Paul to be the Apostle to the GENTILES?

How can God bring forth 12k from the tribe of Benjamin in the future?

- Jesus Christ:

Genetics: Whose DNA did He have?

Sperm and Mary's egg, or zygote implantation.

Called the Second Adam – Adam's DNA? I suspect He would have lived forever, if He had not chosen to do the will of the Father and chosen to die.

Mary's DNA would have contained at least some flaws due to living on earth, if nothing else. It seems obvious that Joseph's DNA was not involved at all. It is possible, however, that Jehova used a perfected sample of Mary's and possibly Joseph's DNA to create “that Holy thing” within Mary. In any case, it would seem to me that the DNA used to create the spotless Lamb of God would have to be flawless, just as Adam's DNA would have been.

Spotless Lamb of God – there could be absolutely no blemish. Not one you could see or one you could not see, but God alone, who sees all things as they are, could see what mankind could not see.

Physically perfect in every way – including DNA. Had to be!

Could have fathered children – never did – never intended to in the physical sense. The fact that Jesus Christ had to have this ability intact indicates that it may be possible for other beings to also have this ability. His death on the cross, naked, humiliated, something I don't even want to think about or write about, gave proof to the Hebrew religious men watching this horrid, yet lovingly beautiful sight, that he was completely intact and functional.

- Salvation:

“New Creature” Perfect in Heaven, No Defective/supplanted genes, if resurrected bodeis indeed have genes. Written in the Lamb's book of life. Opens the door to predestination in a genetic sense.

HOWEVER:

The Bible tells us we are new, not repaired. Christ's resurrected body is the prototype of the body all of God's chosen will get at the resurrection. We are now beneath the created “angels.” After resurrection, we will occupy a position above, at least, some of them. We will judge some.

1 Cor 6:1 When any of you has a legal dispute with another, does he dare go to court before the unrighteous rather than before the saints? 6:2 Or do you not know that the saints will **judge** the world? And if the world is to be judged by you, are you not competent to settle trivial suits? 6:3 Do you not know that we will **judge angels**? Why not ordinary matters!

The thing to remember is that they are watching, now. Somehow, we will have the authority to judge them in the future.

144k: 12k from every tribe – only God knows who. How can they exist in a complete, genetically viable form after so many thousands of generations?
